After four years of an intensive multidisciplinary and multinational dialogue **COST Action TD1201 COSCH** concludes its activities through this final conference and presents the outcomes of its work devoted to the application of imaging techniques in the field of cultural heritage to the audience of scientists, educators, industry, and end users.

This conference gives a very good opportunity to share the experience from this large & diverse group of experts working since 2013 on the goal of COSCH which is to

*provide a stimulating framework for articulating and clarifying problems, sharing solutions and skills, standardising methodologies and protocols, encouraging a common understanding, widening applications and dissemination.*

Three renowned experts from the field will add overviews from their field of expertise:

**Prof. Dr. Livio De Luca**, Directeur de Recherche, (MAP Modèles et simulations pour l'Architecture et le Patrimoine), Marseille, France

**John K. Delaney**, Ph.D., Senior Imaging Scientist at the National Gallery of Art, Washington, DC, USA

The presentation of results is grouped into four areas:

- Selected presentations submitted to the conference
- Examples from Short Term Scientific Missions realised in the context of COSCH (<http://cosch.info/exchange-visits>)
- Results from individual Working Groups (<http://cosch.info/working-groups>)
- Outcomes of six case studies addressing different research questions related to cultural heritage objects (<http://cosch.info/case-studies>)
  - Roman coins;
  - Germolles' wall paintings;
  - Ancient Greek kantharos;
  - White Bastion fortress;
  - Romanian cultural heritage;
  - Bremer "cog".

The conference will be completed through visits of the laboratories of the Institute of Spatial Information and Surveying Technology (i3mainz) and the Römisch-Germanisches Zentralmuseum (RGZM).

A detailed programme with the names of all authors will be circulated as soon as possible.

## FINAL CONFERENCE

### Monday, 10 October 2016

8:30	Registration
9:30	Welcome
10:00	Invited speaker
11:00	Coffee break
11:30	Results from case studies and Short Term Scientific Missions
1:00	Lunch (not provided)
2:30	Results from case studies and Short Term Scientific Missions
4:30	Coffee break
5:00	Lab visit

### Tuesday, 11 October 2016

9:00	Invited speaker
10:00	Presentation of selected papers
10:45	Coffee break
11:15	Presentation of selected papers
1:00	Lunch (not provided)
2:30	Results from working groups
4:30	Coffee break
5:00	Museum visit
